### OVERSEA TRADE

#### SOUTH AUSTRALIA

1963-64

SCOPE This bulletin shows direct trade between overseas countries and South Australian ports. Thus EXPORTS INCLUDE some goods originating in other States but shipped from South Australian ports, but EXCLUDE South Australian goods shipped from ports in other States. Similarly IMPORTS INCLUDE some goods unloaded in South Australia but later sent to other States, but EXCLUDE goods unloaded at ports in other States for subsequent movement to South Australia. Normal INTERSTATE TRADE in Australian goods is of course EXCLUDED from all figures.

VALUE of exports is expressed £A f.o.b. or its equivalent at port of shipment; value of imports is "transaction value" £A f.o.b. or "domestic value" £A f.o.b. at port of shipment, whichever is the greater.

QUANTITIES are tabulated only in respect of exports for which there is an appropriate unit of quantity.

The 1963-64 figures are preliminary and subject to revision.

#### EXPORTS TO OVERSEA COUNTRIES

The United Kingdom is the principal country to which goods are exported. Exports to that country increased from £27.1 million in 1949-50 to a peak of £55.5 million (45.1 per cent of total exports) in 1952-53. Since then the proportion of exports shipped to the United Kingdom has declined generally to 26.22 per cent of total value in 1963-64.

The value of exports to other countries fluctuates considerably from year to year, but four countries - Japan, United States of America, France, and New Zealand - have taken over 30 per cent of South Australian exports in recent years. In 1963-64 the respective proportions of total exports shipped to those countries were 17.3 per cent, 5.9 per cent, 5.2 per cent, and 4.8 per cent.

**VOLUME OF  
OVERSEA  
EXPORTS**

The following table shows the quantities of selected items of exports for each of the last five years.

In 1963-64 191.9 million (greasy equivalent) lb. of wool, an all-time record quantity, was exported. The previous record quantity was 185.2 million (greasy equivalent) lb. exported in 1961-62. The decrease in the price of wool from the 1950-51 peak is illustrated by the fact that although the total greasy equivalent quantity exported during 1963-64 was 62.8 per cent greater than the quantity exported in 1950-51 the total value was 2.2 per cent less than the record of £54.9 million attained in 1950-51.

The quantity of wheat exported during 1963-64 of 48.7 million bushels was an all-time record exceeding the previous record of 41.7 million bushels exported in 1919-20.

Although the quantity of barley exported during 1963-64 of 13.5 million bushels was 95.7 per cent more than the quantity exported in 1962-63 it fell far short of the record 24.8 million bushels exported in 1961-62.

**VALUE OF  
OVERSEA  
EXPORTS**

Table 3 shows values of principal commodities exported and Table 4 shows values of exports according to commodity groups.

As shown in Table 4 about 90 per cent of the value of exports comes from the Agricultural, Pastoral, and Mining groups. The commodities of greatest value in each group are:- Agricultural - wheat, barley, and flour; Pastoral - wool, sheep-skins, and meat; Mining - lead (pig), lead (including silver-lead) concentrates, and zinc concentrates.

IMPORTS

The United Kingdom is the main supplier of goods imported into South Australia. Since 1949-50 the value of direct imports from that country has varied between £16.4 million and £36.4 million while the proportion has fluctuated between 31.7 per cent and 52.2 per cent of total imports, decreasing from 43.9 per cent in 1959-60 to 32.7 per cent in 1960-61 and 31.7 per cent in 1961-62 and 1962-63.

In 1963-64 the United Kingdom supplied 24.1 per cent of total imports, United States of America 29.4 per cent, and Canada 5.3 per cent, and in each of the last six years those countries were the source of about 60 per cent of total imports.

VALUE OF  
OVERSEA  
IMPORTS

Since 1949-50 the value of imports into South Australia has varied between £45 million and £90 million annually except for 1951-52, when it reached £93 million. The changes in totals have been influenced mainly by two groups of commodities:-

- (1) Metals and metal manufactures, which comprises nearly half of all imports. The most variable commodities in this group are Motor vehicles and Iron and steel.
- (2) Oils, fats, and waxes. The value of direct imports of this group, which includes Petrol, kerosene, and diesel oil, fell steadily from £8.5 million in 1953-54 to £2.9 million in 1957-58 but rose slightly to £3.5 million in 1961-62. During this period supplies from newly-established refineries in other States tended to replace direct oversea imports of refined oil products. The sharp increase in direct oversea imports to £6.1 million in 1962-63 and £10.8 million in 1963-64 resulted from the import of crude oil for use in an oil refinery which commenced operating in South Australia during 1962-63.

The general pattern of imports has not changed greatly since before the war, but some changes have occurred in the proportions which principal items bear to total imports. In addition to the variations in Oils, fats, and waxes, marked fluctuations have occurred in the Vehicles group, which accounted for 7.4 per cent of total imports in 1938-39, 13.8 per cent in 1960-61, 12.5 per cent in 1961-62, and 21.8 per cent in 1962-63, and 25.5 per cent in 1963-64.
